## Profile

Passionate about technology, I love learning new skills in this field. I study cybersecurity to ensure data protection. Data protection is very important to me. I'm trying to create a viable social network that will not abuse personal data.

## WORK EXPERIENCE

Since 2018  
(Liège, Belgium)

### PLAN-IT SA

#### Student Seller

I have been a seller for plan-it SA for 2 years. I have to advise clients on products. So I can easily communicate with unknown people. I have to communicate each days with my colleagues.

Since 2019  
(Liège, Belgium)

### Web development project

#### Web developer

I have developed websites by myself for one year. I haven't released my work yet because it is not fully functional but I can show it on demand. The fields of activity of my websites are mainly social networks and a crowdfunding platform.

## Hard skills
